

To whom it may concern

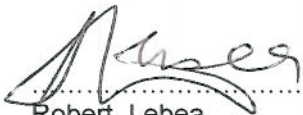

Dear Sir / Madam

SABS Paints & Sealants Laboratory confirms that samples were sent by Parrot Products Company to be tested for compliance against National Standard since there is no National Standard available for South Africa industry. The samples were tested against CKS 36:2004 which is an International Standard.

It is not possible to test the Whiteboard to this standard – Only Chalk board can be tested.

Should you have any queries please do not hesitate to contact us at SABS.

Yours Sincerely

Robert Lebea
Test Officer: Paint and Sealants

Charles Sibiya
Manager: Paints &
Sealants/Rubber & Plastics
